BC.NetBarcodeGenerator.Gs1128

Overview

BC.NetBarcodeGenerator.Gs1128 is an advanced .NET library specially designed for .NET programmers to generate GS1-128/EAN-128 barcodes in various .NET (C#/VB.NET) projects, like .NET Windows Forms, ASP.NET Web, .NET Class Library, Console Application, etc. This .NET library can be easily embedded into your .NET projects for development.

BC.NetBarcodeGenerator.Gs1128 only supports GS1-128/EAN-128 barcode symbology generation for .NET applications. For all 1D and 2D barcodes generation, you should use our BC.NetBarcodeGenerator.All SDK.

Limitation

Trial version limitation: the watermark, "BC.Trial", will be displayed on created barcode image randomly.

Integration

The only thing for integration is to add your project reference to BC.NetBarcodeGeneratorTrial.Gs1128.dll.

How To

The demo projects included (for ASP.NET and .NET Windows Forms) illustrate how to generate GS1-128/EAN-128 barcodes and output to String, Bitmap object, Stream object, Graphics object, and byte array. If you want to generate GS1-128/EAN-128 barcodes in .NET Windows Forms, ASP.NET Web Forms, and IIS applications, please see this online guide.

Order
