

## [BC.NetBarcodeGenerator.U pca](#)

### **Overview**

BC.NetBarcodeGenerator.U pca is an advanced .NET library specially designed for .NET programmers to generate UPC-A barcodes in various .NET (C#/VB.NET) projects, like .NET Windows Forms, ASP.NET Web, .NET Class Library, Console Application, etc. This .NET library can be easily embedded into your .NET projects for development.

BC.NetBarcodeGenerator.U pca only supports UPC-A barcode symbology generation for .NET applications. For all 1D and 2D barcodes generation, you should use our [BC.NetBarcodeGenerator.All SDK](#).

### **Limitation**

Trial version limitation: the watermark, "BC.Trial", will be displayed on created barcode image randomly.

### **Integration**

The only thing for integration is to add your project reference to BC.NetBarcodeGeneratorTrial.U pca.dll.

### **How To**

The demo projects included (for ASP.NET and .NET Windows Forms) illustrate how to generate UPC-A barcodes and output to String, Bitmap object, Stream object, Graphics object, and byte array. If you want to generate UPC-A barcodes in .NET Windows Forms, ASP.NET Web Forms, and IIS applications, please see [this online guide](#).

### **Order**

See [license and price details online](#).
